Knob Noster Public School District  
Attn: Dr. Jerrod Wheeler  
401 East Wimer Street  
Knob Noster, MO 65336

Dear Mr. Wheeler,

This is a follow-up to our meeting several weeks ago. It is possible for the Knob Noster Public School District to obtain our maintenance facility. Ideally, it would involve consolidating our Knob Noster and Warrensburg maintenance facilities at a new location in central Johnson County. Between the two facilities, we have substantial operations focused on providing safe transportation services to Johnson County. Some of the highlights are:

- 22 full time employees
- 16 heated bays
- 21 acres
- Paint storage
- 62,000 gallons liquid storage
- 2600 ton salt storage
- Heated asphalt tank

We can't transfer ownership of these facilities without a place to go. We would need to be provided an operational facility to seamlessly continue our highway operations. If an existing facility with adequate utilities can't be obtained within our geographic requirements, we would entertain a proposal to provide new facilities. We plan to temporarily delay any major improvements to these two facilities while our discussion continues.

If you get to the point you want to move forward, a more formal process will need to be followed. We look forward to further discussing ways we can work together to the benefit of all.

Sincerely,

Chris Redline  
Assistant District Engineer
